- a. Competitors participating in any KAST sanctioned event must observe the applicable rules for the specific event in which they are participating and must conduct themselves at all times in a manner that reflects favorably on the sport of kayak bass fishing, KAST, its members, officers or representatives, tournaments or sponsors. Competitors are expected to follow high standards of sportsmanship, courtesy, integrity, safety and conservation in support of the sport of kayak bass fishing, especially when in the vicinity of non-Competitors who may be on or beside eligible waters. Any Competitor who violates these principles or behaves in ways that reflect unfavorably upon KAST efforts to promote fisheries conservation, clean waters and courtesy, may forfeit tournament winnings, face suspension from future KAST sanctioned events, be permanently banned from competition, or any combination thereof deemed appropriate by KAST.

- b. It is an obligation of Competitors to refrain from comments in public forums and social media or to the news media that unreasonably attack or disparage the integrity of KAST tournaments, tournament officials, sponsors, fellow members, fellow Competitors or the KAST organization. Competitors are encouraged to express themselves and have the right to question the rules officials. Public comments that a Competitor knows, or should reasonably know, will harm the reputation of KAST or member clubs may result in disciplinary action. Publicly disputing any judgment decisions by KAST Tournament Directors or judges will result in participants receiving one warning followed by permanent disqualification for repeated offenses. Any public dispute of final rulings, ongoing determination by judges or judging panel is grounds for immediate disqualification from the current event and termination of any eligibility for future events, even if previously qualified. This is not in place to prevent any disputes; it is done to ensure that a fair and unbiased approach is used and the approved challenge and appeals processes are followed in determining the best possible outcome.
